LIFE FOR LAND.

75,000 Boomers Go
into the Strip.

LAND OPENED AT NOON

And a Grand Scramble Takes
Place.

THE RIO GARRISON SURRENDERS

And is Now in the Hands of the
Successful Insurgents.

ARKANSAS CITY, Sept. 16.—Five
minutes before noon 75,000 men and
women, gathered on the north and
south boundaries of the Cherokee strip.

When exactly at high noon at a
signal from the commanding officers'
revolvers, Uncle Sam's representatives
rang out the signal for the start, pel-
mell, helter-skelter, hurry-scurry, the
great speculative army rushed across
the line and raced for home and fortune.

At town sites the stronger took pos-
session. Tents went up, town meet-
ings were held, officers elected, and in
an incredibly short time full-fledged
municipalities sprung into existence.

On the prairies, farmers raced for
homesteads.

Enough people made the run to fur-
nish each of the 37,600 homesteads with
an occupant, and give every town site
1,500 inhabitants.

Over 125,000 certificates have been
issued, but as a large number took both
homestead and townsite certificates,
the number of certificates does not rep-
resent the number of boomers.

It is estimated that twenty-five thou-
sand raced from Arkansas City; fifteen
thousand from Caldwell; eleven thou-
sand from Orlando; nine thousand
from Hennessey, seven thousand from
Stillwater; three thousand from Kiowa,
three thousand from Hunnewell, and
five to eight thousand from other
points. In all there was nearly double
the number which raced into Okla-
homa.

The weather was all that could be
desired. The greatest rush was on the
eastern strip, which contains the most
fertile land in the entire reservation.

Perry, on the Santa Fe, is a most
favored townsite. When they arrived
in the strip the throng found a desolate
waste. Most of the hay has been cut
off, and what remained was either
burned off by prairie fires or scorched
brown by drought and sun. Creeks
have run dry, and the Arkansas and
Simmeron rivers are nearly so.

There will be great suffering for lack
of water. The strip contains six mil-
lion and four hundred acres.

GUTHRIE, Sept. 16.—Information
is received here that four "boomers"
were fatally wounded last night by
soldiers.

GUTHRIE, O. T., Sept. 15.—Fifteen
thousand people were massed about
the Santa Fe depot, ready to fight for
a place on the first train tomorrow.

The railway company will not be able
to carry over half these people, and the
struggle for a place on the train will be
a terrific one. Nineteen people were
prostrated with the heat today, and
three died. One young man went raving
crazy, and is locked up in jail here,
with no clue to his identity. Several
large fires were started upon the strip
tonight, and it is feared many settlers
will be caught in them tomorrow and
burned.

The Brazilian Revolution.
BUENOS AYRES, Sept. 16.—Official
advice announce repeated bombard-
ment for the past few days at Rio Jan-
eiro. Nichetrov was shelled time and
time again, and the garrison was flus-

tered and compelled to surrender, after a gal-
lant resistance.

It is reported that after the surrender
the garrison and the civil guards
joined the insurgents, who have re-
ceived large additions to their fleet.

The president and the government
are driven out of Rio, and are now en-
camped with loyal troops at Santa
Anna, twelve miles from Rio awaiting a
rebel attack.

The insurgents are receiving rein-
forcements on all sides and are confi-
dent of ultimate success. President
Peixoto has endeavored to make terms
with insurgents, but with the reply
that nothing but unconditional sur-
render would be accepted.

In Congress.
WASHINGTON, Sept. 16.—In house
the filibustering tactics against the
Tucker bill are continued.

When the repeal bill was taken up,
Voorhees asked unanimous consent
that general debate close on the 25 inst,
the amendment to be debated until the
27th under five minute rules. Teller
objected. Allison, Republican, of
Iowa, addressed the senate on the bill.

A Record Breaker.
CHICAGO, Sept. 16.—The stallion
trotting record broken to 2:06 1/2,
the world's pacing record of 2:04 equalled,
and four heats desperately fought from
wire to wire in the greatest race trotted
this year, was the sport witnessed by
18,000 people at Washington Park yester-
day. The day was not one for speed for
the wind was blowing furiously in the
horses' faces all the way down the
home stretch. Before Directum was
brought out it was announced that
owing to the high wind he would be
sent against his own record of 2:07 in-
stead of Nancy Hanks' record of 2:04,
it being conceded that to equal the lat-
ter time on such a day would be an
impossibility. Directum made the first
quarter in 0:28, reached the half in 1:03
and in 1:34. Turning into the stretch
he met the full force of a strong wind,
but came to the wire in 2:06 1/2, thus tak-
ing a full second off the record for full
torses.

Family Fatality.
SPOKANE, Wash., Sept. 16.—Mrs. L.
C. Bullivant shot her husband, Rich-
ard, and then fired two bullets into her
own body. One bullet entered the
man's right side, passing through his
arm and penetrating a lung, and an-
other struck his right knee. Both shots
which the woman fired at herself en-
tered the breast, one penetrating a lung.
Both victims will probably die. The
couple kept a bird store. They had
several quarrels lately, and Bullivant
was packing up his trunk to leave.
His wife asked him to kiss her and was
repulsed, when she drew a pistol and
began firing.

Bullion Thief Confesses.
PHILADELPHIA, Penn., Sept. 16.—
The weigh clerk in the mint has con-
fessed to having taken the missing
bullion. He furnished information as
to where over \$100,000 of it was secreted,
which has been recovered. The
treasury department will lose nothing.

Plenty of Money.
NEW YORK, Sept. 16.—The official
bank statement today shows that the
banks now hold ten million and one
half in excess of the legal requirements.

Fire Continues.
MARSHFIELD, Mich., Sept. 16.—Fire
last night destroyed twelve business
houses and three dwellings. The loss
will be one hundred and fifty thousand
dollars.

The situation at Marshfield, Wis.,
is unchanged. Additional families
have been burned out. McMillan is
still safe, but Neillville, Clark county,
is in danger.

Train men have to bandage their
faces when they pass through the fire
district. The entire region is enveloped
in suffocating smoke, and the inhabi-
tants are terror stricken.

MARSHFIELD, Wis., Sept. 16.—The sit-
uation as to the forest fires is unimproved,
except that the wind has somewhat
subsided. No sign of rain.

THE MARKETS.
SAN FRANCISCO, Sept. 16.—Wheat,
December \$1.19.
CHICAGO, Sept. 16.—Cash, 68 1/2; De-
cember 72.
PORTLAND, Sept. 16.—Wheat valley,
\$1.00; Wal's Wal's, \$1.07.

To Trade for Goods
Valuable timber and farming lands
in Lincoln county in tracts of 10 to 100
acres. Will trade for general merchan-
dise. Address, PEER & RUSSELL,
93 1/2 in. Yaquina, Oregon.

CURES
RISING BREAST
"MOTHER'S FRIEND" is the greatest
bleeding ever offered
child-bearing woman. I have been a
mid-wife for many years, and in each case
where "Mother's Friend" has been used it
has accomplished wonders and relieved much
suffering. It is the best remedy for raising of
the breast known, and worth the price for
that alone.
Mrs. M. M. Brewster,
Montgomery, Ala.

TORTURED BY INDIANS.

Immense Shortage at a Govern-
ment Mint.

FILIBUSTERING CEASES TILL TUESDAY

More Comfortable Condition of
the U. S. Treasury.

KNOXVILLE, Tenn., Sept. 16.—Two
brothers by the name of Clayton, from
Cherokee county, North Carolina,
reached here in a badly mutilated con-
dition. During the summer they
fished near an Indian camp. This so
angered the Indians that they decided
to whittle the Claytons. Each man
was tied to a tree and made to fast a
week. Their eyes, ears, noses and toes
were then mutilated, after which each
man was slightly scalped. The Clay-
tons left the scene of their outrageous
treatment 20 days ago. They suffered
unusual privations on the road. Here
they were supplied with means to take
them to Texas, where they have
friends. The North Carolina Indians
are Cherokees, who were not removed
by the government at the time of the
settlement of the tribe in the territory
west of the Mississippi. They have
not advanced very rapidly in civiliza-
tion.

PHILADELPHIA, Sept. 16.—The
weighing of gold bullion in one of the
reserve vaults of the mint shows a short-
age of \$105,000 worth. The vault was
sealed in 1887. The seals show the door
was not opened. If there has been an
abstraction it must have been through a
breach in the walls. The mint officials
refuse to talk.

WASHINGTON, Sept. 16.—In the House
deadlock Mr. Tucker and his colleagues
hardly expect to be able to muster a
quorum, and on Monday the house will
participate in a body in the ceremonies
attending the centennial celebration of
the laying of the corner stone of the
capitol. On Tuesday, however, they
confidently anticipate the presence of
their own quorum and then they will
be able to brush aside the opposition of
the republicans.

WASHINGTON, Sept. 16.—Govern-
ment receipts from all sources continue
more encouraging this month than had
been hoped for. Treasury officials are
beginning to believe the excess of ex-
penditures over receipts will not be so
large this month as they have been the
two preceding months of the present
fiscal year. The excess during July
and August was nearly \$5,000,000 each.
Thus far this month it is less than
\$500,000, with indications of keeping
down pretty well during the remain-
der.

WASHINGTON, Sept. 16.—Rapid
progress is being made at the Washington
gun foundry in the construction of 12
13 inch rifles for the four new battle-
ships nearing completion. Seven are
practically completed and three ready
for testing. The test will be made as
soon as the important question of pow-
der has been determined. These are
the most powerful guns ever built for
the United States navy.

LONDON, Sept. 16.—A Vienna corre-
spondence of the Times says the Hun-
garian government has reduced the
official price of the product of its silver
mines from 90 to 57 forins per kilo-
gramme. Austria is expected to take
the same step soon.

Blackmatters Arrested.
PORTLAND, Or., Sept. 16.—Charles
F. Boggs and a man named Rosenstadt
were arrested today on complaint of
G. H. Weiser on charge of attempted ex-
tortion. The men attempted to black-
mail Weiser, whose house recently
burned. They threatened to procure
his arrest for arson if he did not give
them one thousand dollars.

Fire at Klamath.
KLAMATH FALLS, Sept. 16.—A fire
destroyed six buildings here this morn-
ing. The business portion of the town
was saved. Loss \$10,000; insurance
\$4,500.

The fire was undoubtedly of incendi-
ary origin. Following are the prin-
cipal losers: How and Parrish, hardware
fifteen hundred; Mrs. H. L. Shallock,
millinery, two thousand; C. S. Sargent,
merchandise, six thousand. Insurance
four thousand.

How's This?
We offer One Hundred Dollars re-
ward for any case of Catarrh that can-
not be cured by Hall's Catarrh Cure.
F. J. CHENEY & Co., Toledo, O.

We, the undersigned, have known F.
J. Cheney for the last 15 years, and be-
lieve him perfectly honorable in all

nally, acting directly upon the blood
and mucous surfaces of the system.
Testimonials sent free. Price 75c per
bottle. Sold by all Druggists.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

Big Hop Ranch.

SPOKANE, Sept. 16.—Hop picking in
all its glory is going on at the Big Sno-
qualmie hop ranch on the Snoqualmie
river, as in all other parts of the Puget
Sound country. The best reports are
coming in from the districts adjacent
to the city and a fair average crop of
excellent quality is being picked.

Captain George W. Gove, manager of
the big Snoqualmie hop yards, says
that the yield of the yard this year will
be 1800 pounds to the acre, now worth
17 cents per pound and the company
has 375 acres of the finest looking hops
that ever were seen.

The principal stockholders of the
Snoqualmie hop growers' association,
which owns the big yard, are: Rich-
ard Jeffs, of White river, president;
George W. Gove, vice president and
manager; H. Dutard, of San Francisco,
treasurer; G. K. Baxter, of Seattle.

The company began operations in
the spring of 1885. That year they
planted 200 acres to hops and now have
375 acres. They also have over 100
acres of oats, as many acres of timothy
hay, twenty acres of potatoes, several
acres of all kinds of vegetables, enough
to supply the farm all the year. They
also have three acres of tobacco. They
have the handsomest orchard in the
state, covering forty acres and contain-
ing apple, peach and plum trees. These
trees were planted twenty-six years
ago. The company purchased 1200
acres. They have a large part now un-
der cultivation. The average force em-
ployed on the ranch is from 50 to 100
persons. There are about 75 on the pay
roll during the month of picking. There
will be over 1000 pickers in the yard
this year, one-half of the number being
Indians.

The Snoqualmie hop ranch is situated
in a natural prairie surrounded by a
dense forest. The Snoqualmie river
flows through the hop fields. Eight
hop houses and 24 kilns and sheds are
distributed at convenient points on the
plantation for shelter of Indian pickers.
There are 35 horses kept busy on the
ranch, 20 head of cows, hogs, chickens,
etc. The hotel is a three-story build-
ing surrounded by beds of lovely flow-
ers and plants. The hotel is 60x100
feet and is plastered throughout.

There are rooms for 70 guests, each
room is supplied with pure water pipes
from a large spring and turned on in
each room by faucets. East of the hotel
is a boarding house for employes of
the farm. This is two stories, 36x70,
with L 80x36 feet, and between this is
the company store, 40x100 feet. The
average stock of merchandise is about
\$25,000. Across the lane is a large barn.
Near the center of the farm is another
barn with blacksmith, wheelwright
and carpenter shops and sheds for
threshing machines, etc.

Washington Hops.
TACOMA, Sept. 16.—The first ship-
ment of this year's hop crop has been
made to London. It consisted of five
carloads from E. Meeker. It is esti-
mated the crop of the state will be about
50,000 bales. Ten thousand whites are
now engaged picking hops in yards in
the state and 3500 Indians. Conse-
quence, no unemployed in Tacoma.
Indian pickers come from Oregon,
Washington and Idaho.

Hops this year are of remarkably fine
quality. The dry climate of Eastern
Washington prevented annoyance
from lice, as in Western Washington
careful spraying saved the vines from
being injured by the pest.

An operation for appendicitis has
been successfully performed on John
Murdoch, steward of the steamer North
Pacific. Murdoch swallowed a slice
bunton some time since and came near
losing his life.

Willamette University

FIFTIETH YEAR.

Oldest, Highest and Most Extended
Institution of Learning in the Pacific
Northwest.

Sixteen courses of instruction, from
Grammar, through Academic and Col-
lege, to Theology, Law and Medicine.

THE COMMISSION SPECIAL.

Railway Board and Officials at the
Capital City.

A special train reached the city Fri-
day evening and was run down into
the lower yard, leaving Railway Com-
missioners Compton, Eddy, and Mac-
cum, Clerk Lydell Baker, Supt. Fields
Mr. Walahand of the Railway Age,
Engineer Grandall. The party visited
the state fair and departed for Portland
completing their semi-annual inspec-
tion of the Southern Pacific lines. The
commission has spent the week at this
task, beginning at the state line and en-
coming north. No accidents were met
with and the tracks were found in very
good state of repair. Hiram E. Mil-
chell, a son of Senator Mitchell is a
guest of the party.

FROM JEFFERSON.

Considerable grain is being brought
to the Jefferson Mills by the farmers of
this vicinity, but few are selling on ac-
count of the extremely low prices.

A. B. Hudelson, one of our hardware
merchants, is having a fine residence
built near the S. P. depot. Mr. H. has
had this building in contemplation for
several years but his plans are now be-
ing carried out.

Prof. L. Barzee, the new principal of
our institute, has arrived and is mak-
ing preparations for the opening of the
school on the 25 inst. The directors
have postponed the time of commencing
from the 16th to the 25th, as a majority
of the pupils are picking hops.

Some of our farmers were caught by
the recent rain, in consequence of which
there is considerable grain still un-
threshed; the present fair weather will,
however, soon dry it sufficiently for
threshing.

The houses which were vacant dur-
ing the summer, are now being filled
again, and soon houses for rent will be
scarce.

The Jefferson Mills are doing a good
business this season under the manage-
ment of Shultz Bros. G. F. Robertson
is the miller in charge.

Owing to the hard times but few peo-
ple from this end of the county are at-
tending the state fair. They haven't
the "big round dollar" to spare.

Washington Hops.
TACOMA, Sept. 16.—The first ship-
ment of this year's hop crop has been
made to London. It consisted of five
carloads from E. Meeker. It is esti-
mated the crop of the state will be about
50,000 bales. Ten thousand whites are
